BRIDGTON

Mrs. John Cockburn of Portland met with a very painful accident. She and her son, Dana, were on their way to Portland when they saw an A. & P. truck coming some distance off. Dana slowed down to a very low speed, but could not get out of the rut, while the big truck was coming on at a good rate of speed. He not being used to this road, did not know of the usual icy and rutty places, especially at this particular curve. The two came together, head on, and the going through the windshield, although there were no cuts, only bruises on her head, but her knees were badly hurt, one knee cap was lifted. She is confined to her bed for some time. No one seemed to be really to blame. The Cockburn couple will have to have a new windshield and radiator.

Bridgton town meeting is over once more. Never was there such a turn out, the house being filled, also the large audience, and many standing about all over space taken. The meeting was very interesting from the beginning. Most everyone had a chance to be heard, if they desired. A bit of sharp shooting, yet not going down to the lowest of the possible. Physical education was the only teaching out of the school here, the same officers as selectman George Bryant was elected for another term of three years. Miss Estelle Draper was elected on the school board in place of Mrs. Rosette Burnham, who has served three years in a very able manner. Some tussle was on for road commissioner, voting several times. Maurice Chabourne was elected. It was after 6:30 p. m., when all was over and the moderator was left reading names of the jury.

NORTH BRIDGTON

Radio Allen was given a party at his home, March 14th, in honor of his birthday. A pleasant time was enjoyed playing cards, and with music on the radio.
